1. This Office action is in response to amendment filed 8 June 2006, which papers have been placed of record in the file.

2. Claims 1-21 are allowed over the prior art of record. The following is an examiner's statement of reasons for allowance:

Claims 1 and 19-20 are allowable over the prior art of record since the cited references taken individually or in combination fails to particularly disclose a magnetic head comprising a coil coupled to the magnetomechanically active structure, the magnetomechanically active structure responding to a magnetic field generated by the coil to expand and contract, as presented in the environment of claims 1 and 19-20. It is noted that the closest prior art, Thurn et al., shows a magnetomechanically active structure similar to applicant's invention. However, Thurn et al. fails to disclose a coil coupled to the magnetomechanically active structure, the magnetomechanically active structure responding to a magnetic field generated by the coil to expand and contract as claimed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James L. Habermehl whose telephone number is (571)272-7556. The examiner can normally be reached on 8:30-5:00.
